

## Championship Awards

	Award	Number	Name	Judges' Comments
	Champion's Award: 1st Place	42	The Incredibots	<p>You know the acronym KISS - Keep it Short and Simple. Although this team did not adhere to this principle and they used hundreds of components, their design proved extremely effective. Their robot was a scoring machine. Their documentation was superb and their project was world class. In one word, this team was... Incredible.</p>
	Champion's Award: 2nd Place	30	TeamR.E.D.	<p>From the top of their fuzzy hats to the bottom of their capes, green may mean go... but RED certainly won't make this team stop! This team is RED hot! They roll out the Red carpet to welcome other teams into the FLL family!</p>
	Champion's Award: 3rd Place	7137	Bananas	<p>This bunch is ripe for an award. They're easy to spot because of their great robot design, fantastic fruit stickers, and they peeled away at the teamwork challenge. You don't have to peel away many layers to find a champion here.</p>
	2012 Ohio Ambassador Award	45	Brickheads	<p>The judges were extremely impressed with all six amazing Ambassador finalists, but this team best combined outreach, creativity and enthusiasm. This team doesn't have foam between their ears, but they do have it on their heads... they're Brickheads.</p>
	Research Award	8408	Blockheads	<p>This team left no listeria behind with their idea for disinfecting food in your refrigerator. The judges thought their solution was a gas.</p>

## Championship Awards

	Award	Number	Name	Judges' Comments
	Innovative Solution Award	38	2B Detonated	This team has "eggs-zactly" the right solution for perfectly cooked eggs. They certainly left the judges' eyes poppin'!
	Presentation Award	6610	Team Dynamite	(Sung to the tune of Foreigner's "Cold as Ice") They were cold as ice; not willing to sacrifice our health. They have good advice; when you pay the price for snow. We were blown away by...Team Dynamite.
	Mechanical Design Award	6962	TNT	With this team, you don't have to worry about the fuse running out. You could say this team had an explosive personality. The quick change attachments ensured that there wouldn't be a messy ending.
	Programming Award	1197	Thunderbots	A master program built by master programmers. They have sight beyond sight with their backups and revision process. You should hear this robot roll out. It THUNDERS past the competition.
	Strategy & Innovation Award	1063	Moderately Confused	Coding, documentation, and operation were much more clear than it might seem based on this team's name. This team in no way left the judges confused, however.

# Championship Awards

	Award	Number	Name	Judges' Comments
	Robot Performance Award: 1st Place	42	The Incredibots	High Score: 244
	Robot Performance Award: 2nd Place	30	Team R.E.D.	High Score: 216
	Inspiration Award	5016	Blazing Brains	This team bounced into the judging room with their blazing spirit. Bountiful and bombastic, the team bonded together quickly and displayed breathtaking brilliance. They had all the best neurons burning brightly before blowing the judges minds, but beware their bewildering beaming hands.
	Teamwork Award	13660	Ge-NXT Engines	Their easy laughter and family style communication skills are evident, no matter if you're from the Greatest Generation, a Baby Boomer or a Millennial Kid. This "next generation" of engineers exemplifies Teamwork.
	Gracious Professionalism Award	4547	Pirates of the Lego Storm	These kids arrrrrrrrgh a shining example of inclusion, respect and coopertition. They serenaded the judges with their elevator music and wowed them with their COMPREHENSIVE plan to expand FLL in Central Ohio.
	Team Alliance Award	4547	Pirates of the Lego Storm	Spartan Alliance: Score - 207
		3508	Digital Divas	

## Championship Awards

	Award	Number	Name	Judges' Comments
		4057	Monster Maniax	
	The EPIC Judges Award	3508	Digital Divas	This team has no attitude problems whatsoever, despite their name. In fact, their spirit is far from it. They practice the Girl Scout Law and Core Values well. They earned the EPIC (Engineer, Play, Inspire, Create) Award.
	"PB and Great" Judges Award	9545	Fellowship of the Brick	This fellowship of young hobbits set on a path to rid the world of the evil lord, Samenella. There's nut-ing salty about the re-engineered peanut butter. You'd be sage accepting their invitation to elevensies.
	The WPAFB Founder's Award	4547	Pirates of the Lego Storm	These kids arrrrrrrrgh a shining example of inclusion, respect and coopertition. They serenaded the judges with their elevator music and wowed them with their COMPREHENSIVE plan to expand FLL in Central Ohio.
	Dr. Martin Luther King Jr, Dream Award	8735	STEMbotics	This team impressed the judges with their overall diversity ranging from ethnic background to geographical location. Their team make-up and core values embody the dream described by Dr. King. This team envisions a world where FLL teams are judged not by the color of their hair, but by the content of their character.
	Coopertition Award	10075	St. William Silver Dragons	Harry Potter would love to have these Dragons on his side at Hogwarts. Their enthusiasm and energy are reminders to every team that competition doesn't have to be stressful. They may be silver on the outside, but inside they're golden.

**Championship Awards**

	Award	Number	Name	Judges' Comments
	Young Adult Mentor Award	2434	Amy Kampermann- Loveland Lego Legends	The team said this about their mentor: "She has been our Mentor Extraordinaire for the last four years after being on the team herself since 6th grade. Each year she has devoted 50-60 hours to keeping the researchers focused. She is the living embodiment of the FLL Core Values. You couldn't ask for a better role model. She is the young leader we can point to when people wonder if anything is right with teenagers today. The answer is, yes, there are many things that are right, and she is one of those shining stars among teens who
	Adult Coach/Mentor Award	1638	Michael Vernier - DREP	Michael Vernier has been involved with FLL as a mentor for many years. Michael's only motivation was to help young people learn and foster a sense of the fun that robotics can be. He is not a parent or teacher of any of the teams he helps. Regardless, he puts in countless hours developing the skills of the young people he works with. This year he stepped it up even more to help host a regional tournament. His commitment means two teams have continued to thrive and twelve teams were able to attend a new regional event that would not have happened without his time, dedication and expertise.
