

Session Four: The Robots Come to Life!

Group 5 began programming their robot to walk a designated distance.

This session's Map It! theme: 3 things I admire in other people; 4 positive traits in myself; 5 ways I want to describe me.

The students continue building their team's robot with much enthusiasm.

The students continued to build a team identity through the creation & signing of the team commitment form.

The STEM activity for this session was a continuation of the building and programming of the LEGO Mindstorms robots.

Group 4 collaborated on the programming of their robot in order to make it speak upon command.

To practice for the Reconnaissance Race mission, the students took their robot into the hallway in order to test their programming.

In order to inspire students to dream big, a mentor from each group gave a presentation on their career and the path they had to follow in order to reach their goals and dreams.

Kristin Weisenberger shared with the students in her group the steps it took her to get into college and into medical school.

The next STARBASE 2.0 meeting will be Wednesday, March 3rd, 2010 from 4-6 pm.
